Baowatt, dream productions

Baowatt is a project born out of the cultural restlessness of its three partners who have worked in this sector for years. In 2018, we decided to embark on a project to create an event production company that represented our shared values and cross-cutting services. One year later we began creating this versatile space that met the needs of our project, and allowed Baowatt to be available to all interested creators, artists, and users. After more than a year of hard work, in February 2020, we inaugurated the Baowatt Creative Space.

Baowatt space

Baowatt is a 200 m² space located 5 minutes from Girona in the municipality of Quart. Being in Quart makes it possible for a person to travel by car or by bike. Quart has a population of 3640 inhabitants and is surrounded by the great outdoors, offering a place where the possibilities and services of Girona come together with the natural environment offered by the entrance to the Gavarres massif mountains in Quart. Our creative space has been designed to respond to our project by offering a unique place to work and create in. A place where different artistic disciplines can be developed and experimented with at the same time.

Baowatt space

c / Santa Margarida, s / n, 17242, Quart

- **240 m² of usable space**
- **Fiber optics and Wi-Fi**
- **Heating on demand**
- **Toilet and shower**
- **Arts residencies and coworking**
- **Local accommodations can be provided by our contacts**

on the fees.

Watt space

The Watt space is the largest part of the work area. It is a space of 110 m² that has a truss structure of 10 x 7 meters by 4.60 meters high. This zone is designed for companies from different artistic disciplines to do residencies, rehearsals or develop their creations in. It has a three-phase electrical connection, and can be used as an artistic studio for working with heavy materials such as iron or wood. There are also industrial shelving for storing equipment or material.

Watt space

- 110 m² of usable space
- Truss structure 10 x 7 x 4.60 m high
- Three-phase connection on demand
- Default lighting: 11 PAR64 (CP60, CP62), 18 PAR56, 8 PAR30 (possibility to expand with more conventional light or LED).
- Polished cement floor with the possibility of adding linoleum
- Possibility of anchors on demand

@m_bodaintima

Bao space

The Bao zone is an open two-story space. Upstairs there is a common office with all the necessary equipment to work with and a small lounge area to rest in. Downstairs there is a workshop where you can work with light materials such as fabrics, paints, and electronics. It is an open space that can be adapted to the needs of each user.

@m_bodaintima

Bao space

- 90 m² of usable space
- Shared fully equipped work space
- Spacious meeting table
- Office with fridge, coffee maker, kettle and sink
- Network printer with scanner and photocopier
